

Cortex DataHub API

v1.2.0

Consumers Onboarding

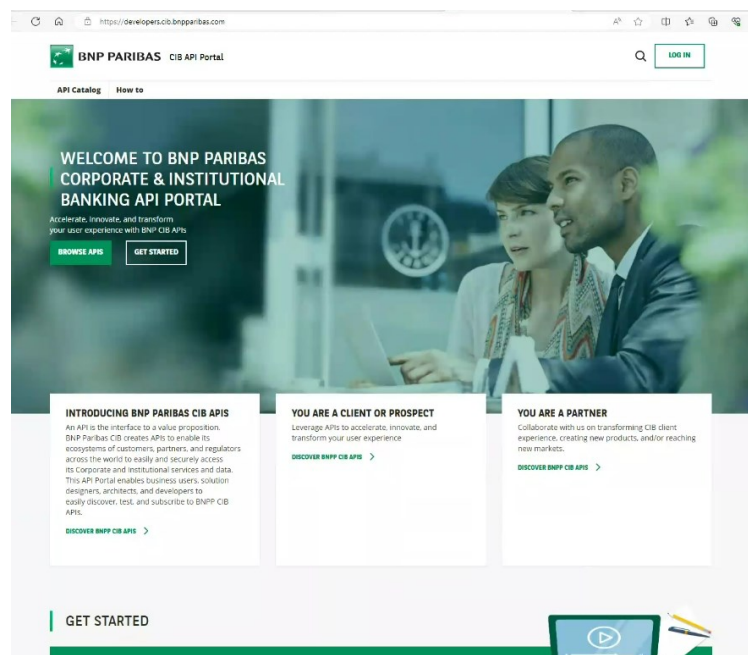

Cortex DataHub API allows you to get access to the BNPP proprietary data you have subscribed to.

Please follow all below instructions carefully.

Sales Contact: dl.cortex.datahub.sales.team@bnpparibas.com

Summary:

1. Register on the portal <https://developers.cib.bnpparibas.com/>
2. Request access to Cortex DataHub API documentation.
3. How to get your credentials.
4. Test your connection.

1. Register on the portal

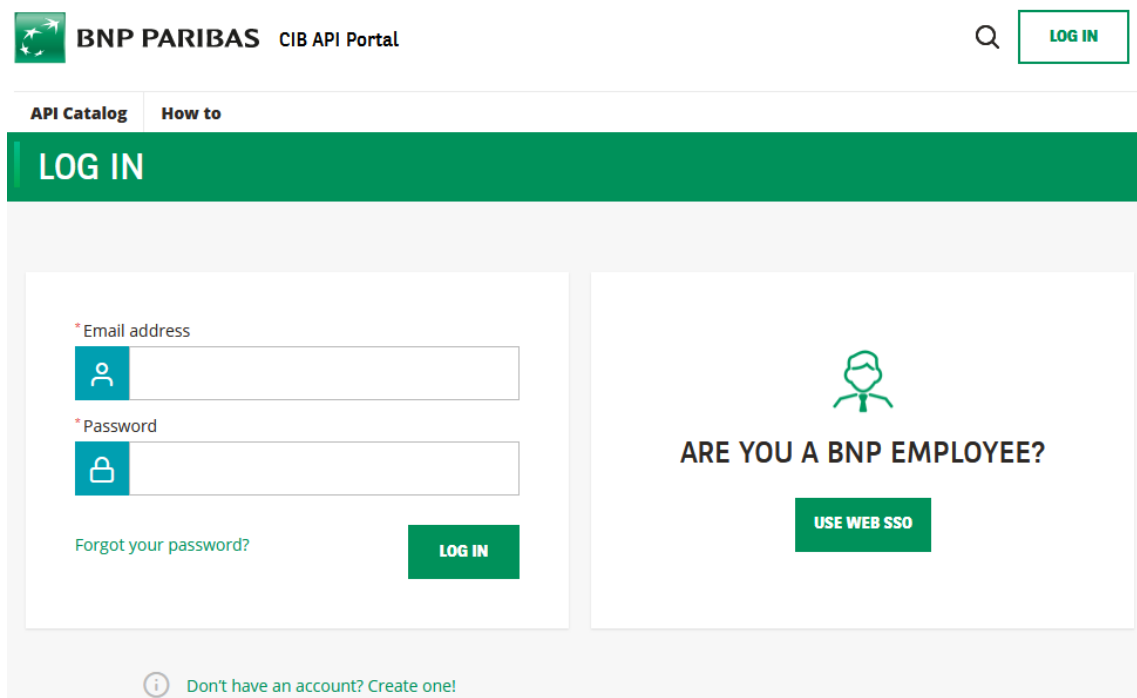

Each user needs to **register** on the below portal:

<https://developers.cib.bnpparibas.com/>

This access will allow the user to access the API documentation and ask for the generation of an APP with your consumer key and consumer secret.

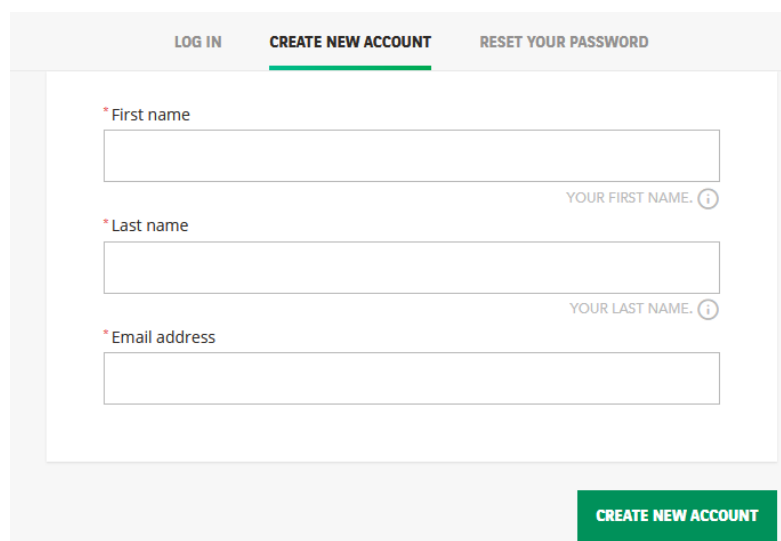

The email registered must be individual and professional. Generic and shared mailboxes will not be accepted.

If you already have an account, please log on:

The image shows the login page of the BNP PARIBAS CIB API Portal. At the top, there is a header with the BNP PARIBAS logo, the text "CIB API Portal", a search icon, and a "LOG IN" button. Below the header, there are two tabs: "API Catalog" and "How to". The main content area has a green "LOG IN" banner. On the left, there is a login form with fields for "Email address" and "Password", both marked with an asterisk. There are icons for a person and a lock next to the respective fields. Below the password field, there is a link "Forgot your password?" and a green "LOG IN" button. On the right, there is a section titled "ARE YOU A BNP EMPLOYEE?" with a green icon of a person wearing a mask and a green "USE WEB SSO" button. At the bottom, there is a link "Don't have an account? Create one!" with an information icon.

If you don't have an account, please create one:

The image shows the "CREATE NEW ACCOUNT" page of the BNP PARIBAS CIB API Portal. At the top, there are three tabs: "LOG IN", "CREATE NEW ACCOUNT" (which is selected), and "RESET YOUR PASSWORD". The main content area has a form with three fields: "First name", "Last name", and "Email address", all marked with an asterisk. There are icons for a person and a lock next to the respective fields. Below the "Last name" field, there is a link "YOUR FIRST NAME." with an information icon. Below the "Email address" field, there is a link "YOUR LAST NAME." with an information icon. At the bottom right, there is a green "CREATE NEW ACCOUNT" button.

You will receive an email from ema.cib.portal-noreply@bnpparibas.com with a unique link to set your password. Following this link, you can then set your password and get access to the portal.

⑤

Passwords match:

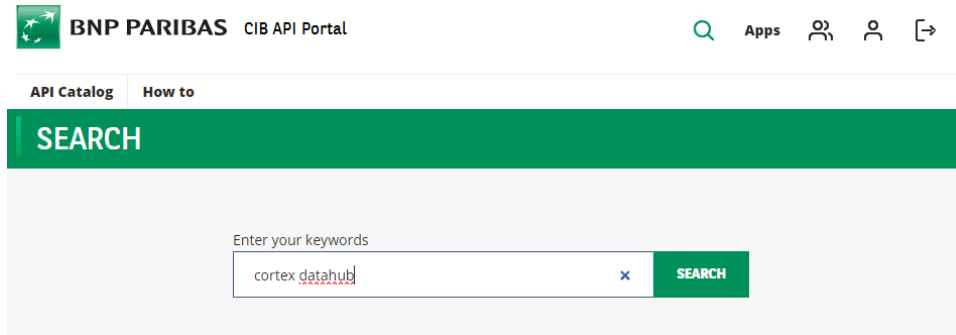

TO CHANGE THE CURRENT USER PASSWORD, ENTER THE NEW PASSWORD IN BOTH FIELDS. THE PASSWORD MUST BE AT LEAST 8 CHARACTERS LONG AND MUST CONTAIN AT LEAST THREE FROM THE FOLLOWING CHARACTER TYPES: UPPERCASE, LOWERCASE, NUMERIC AND SPECIAL CHARACTERS (E.G. !, @, #) ⑥

SAVE

2. Request access to Cortex DataHub API documentation

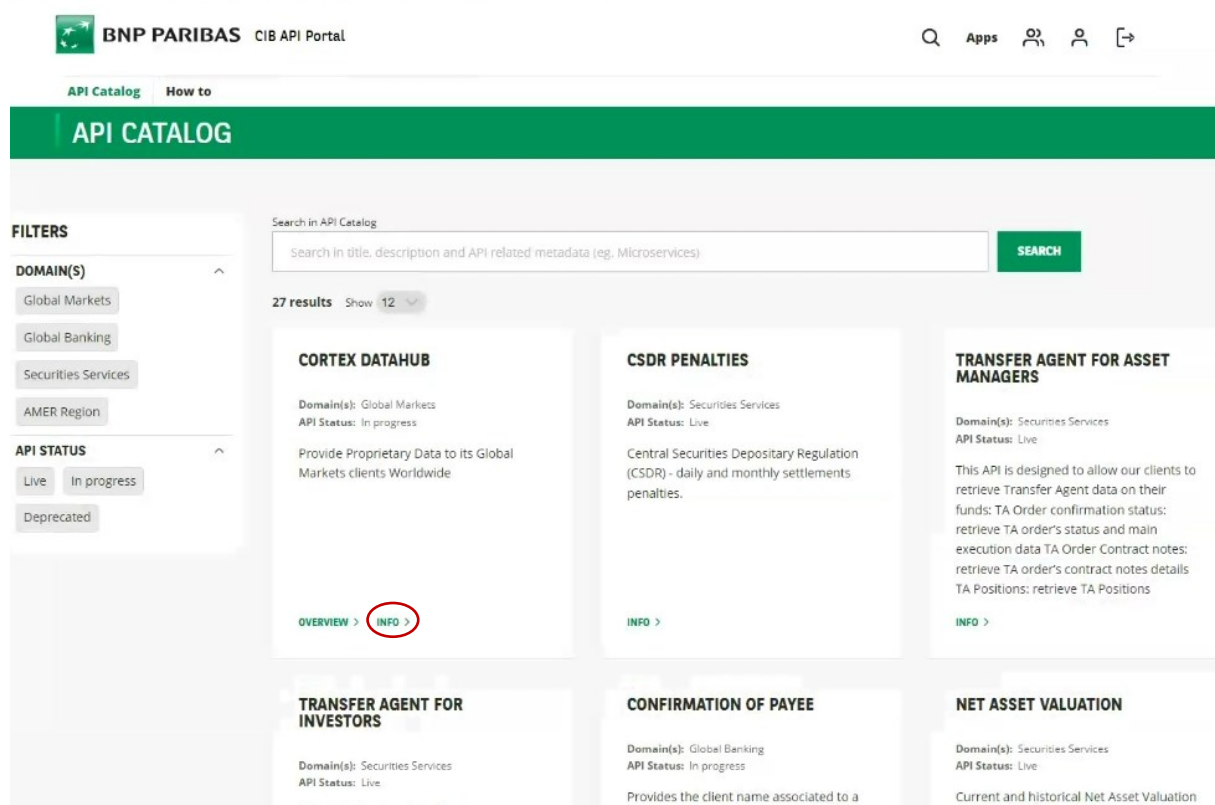

You can log on to the portal and request access to our Cortex DataHub API.

Search it into the API Catalog:

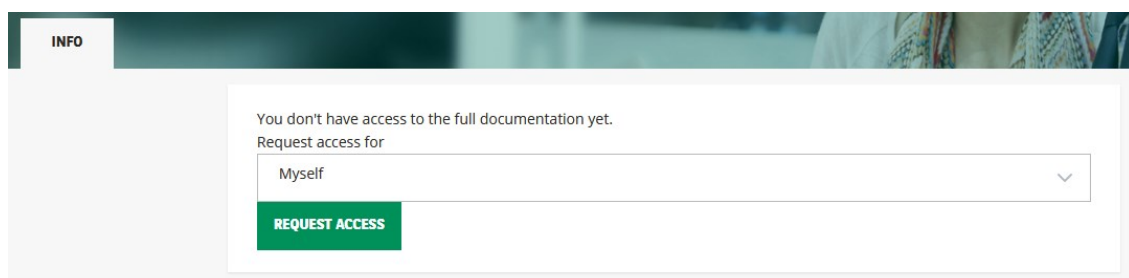

The screenshot shows the top of the BNP Paribas CIB API Portal. The header includes the BNP Paribas logo, the text "BNP PARIBAS CIB API Portal", and navigation icons for search, apps, and user profile. Below the header, there are tabs for "API Catalog" and "How to". A large green bar with the word "SEARCH" in white is prominent. Below this, a search input field contains the text "cortex datahub" with a red squiggly line under "datahub". To the right of the input field is a green "SEARCH" button.

Click on INFO:

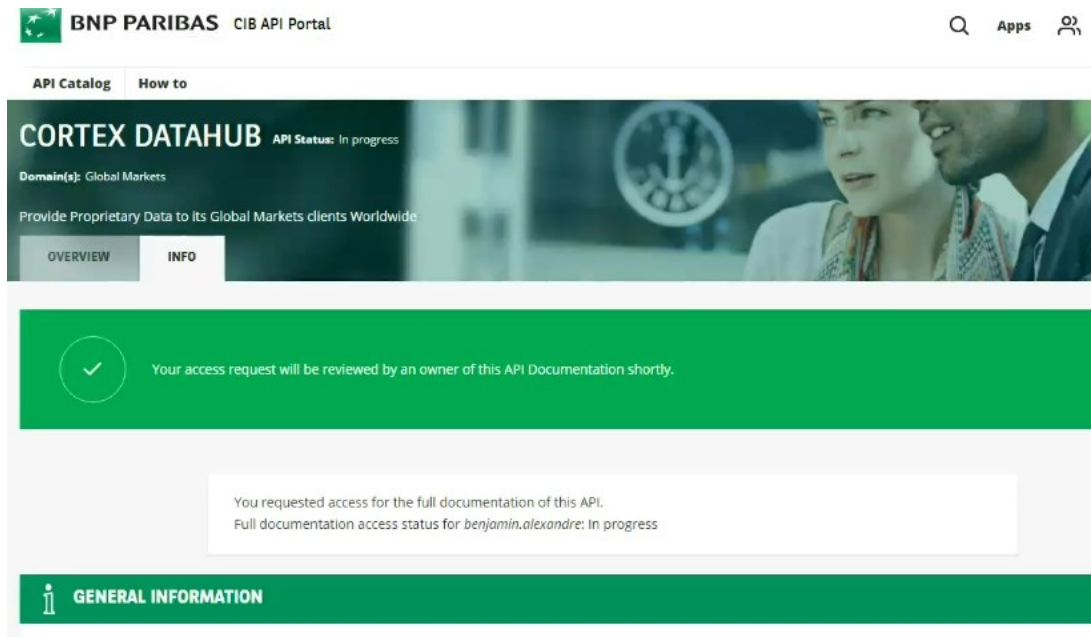

The screenshot shows the "API CATALOG" page of the BNP Paribas CIB API Portal. The header is identical to the previous screenshot. Below the header, there are tabs for "API Catalog" and "How to". The main content area is divided into a left sidebar and a main grid. The sidebar contains "FILTERS" with sections for "DOMAIN(S)" (Global Markets, Global Banking, Securities Services, AMER Region) and "API STATUS" (Live, In progress, Deprecated). The main grid displays a search bar with the text "Search in API Catalog" and "Search in title, description and API related metadata (eg. Microservices)". Below the search bar, it says "27 results" and "Show 12". The grid contains six API cards: "CORTEX DATAHUB", "CSDR PENALTIES", "TRANSFER AGENT FOR ASSET MANAGERS", "TRANSFER AGENT FOR INVESTORS", "CONFIRMATION OF PAYEE", and "NET ASSET VALUATION". Each card shows the domain(s), API status, and a brief description. The "CORTEX DATAHUB" card has an "INFO" link circled in red.

Request access for yourself:

The screenshot shows the "INFO" modal of the BNP Paribas CIB API Portal. The modal has a dark header with the word "INFO" in white. The main content area is white and contains the text "You don't have access to the full documentation yet." followed by "Request access for". Below this, there is a dropdown menu with the text "Myself" and a green "REQUEST ACCESS" button.

Following your request, our API Owner team will be notified and will grant you access to the documentation.

You will then have access to the yaml (Yet Another Markup Language), following OpenAPI Specification v3 standard:

<https://developers.cib.bnpparibas.com/api-docs/cortex-datahub>

3. How to get your credentials

After validation from your sales contact, you will receive an email from him with your consumer key and a part of your consumer secret.

- Consumer key
- Part of consumer secret

Your sales contact, or the support team, will contact you directly by phone or via text message (SMS) to provide you the remaining part of your consumer secret.

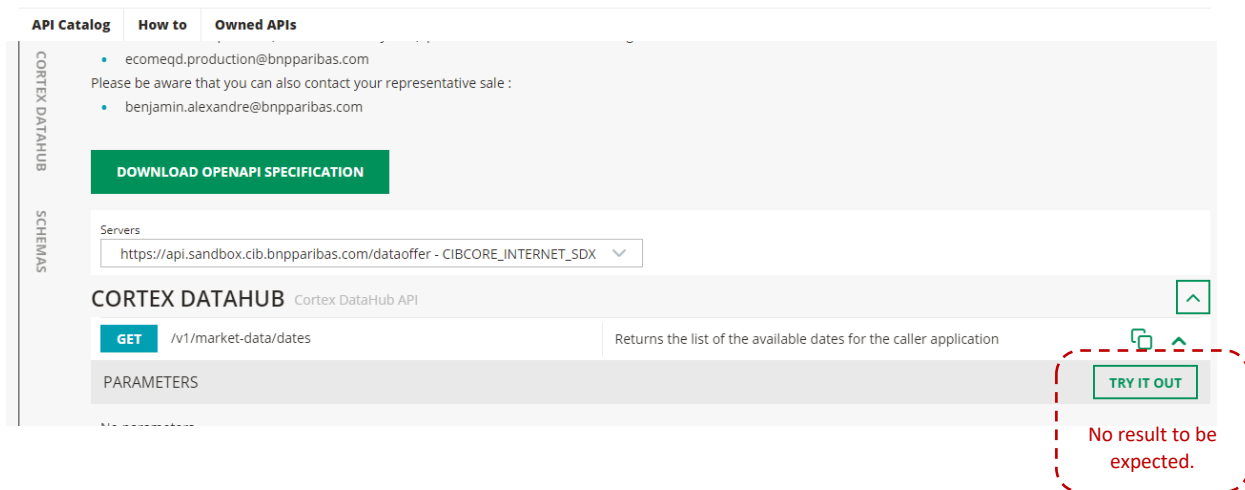

- Rest of the consumer secret

4. Test your connection

The authentication process is described here: [OAuth2 - Client Credentials | BNP Paribas](#)

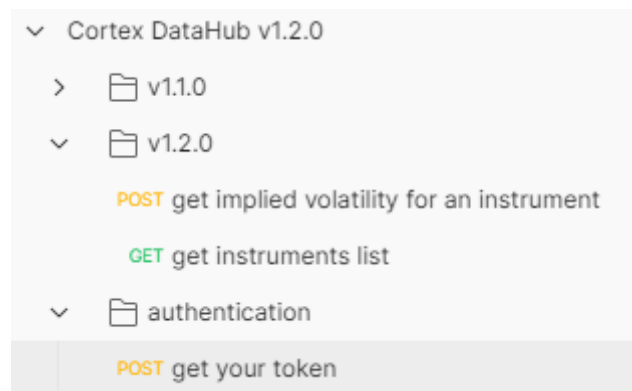

Try via the **portal**: (not available for this version)

Try via **postman**:

Download the file “cortex-datahub-postman-src.zip” collection in the DOC tab of the portal and import it in your postman.

You should get the below in your collections:

Do not forget to fill your key and secret for the first call to get your token in a local variable:

Params Authorization Headers (9) Body Pre-request Script Tests Settings

Type Basic Auth

Heads up! These parameters hold sensitive data. To keep this data secure while working in a collaborative environment, we've masked them. [Learn more about variables](#)

The authorization header will be automatically generated when you send the request. [Learn more about authorization](#)

Username <your customer key>

Password <your customer secret>

☒ Show Password

Do not forget to fill the date and document name when needed:

Cortex DataHub v1.2.0 / v1.2.0 / get implied volatility for an instrument
